

UN SUSTAINABLE DEVELOPMENT GOALS

1 Telenet applies a social fee to all its telecom products and services ensuring an inclusive digital society accessible to all

4 Telenet helps youth and adults in developing digital skills that prepare them for employment and entrepreneurship.

5 10 Telenet promotes a culture of inclusion and diversity, offering equal opportunities irrespective of race, religion, sexual orientation, gender, disability or age.

7 13 Telenet limits its environmental footprint with a strong focus on improving our carbon efficiency. Our services also help others to cut back carbon emissions. We actively invest in renewable energy solutions

8 9 Telenet is an important player in the Belgian economy. We stimulate growth by providing competitive and innovative products and services for our customers and by investing in a leading integrated network. We create good jobs in our own company and help entrepreneurs thrive. Of course, we also ensure decent working conditions in our supply chain.

11 Telenet and its partners contribute to making cities and communities more sustainable with smart and innovative IT-solutions.

12 Telenet promotes sustainable management and efficient use of natural resources. We actively reduce the amount of waste generated in our business processes through prevention, reduction, recycling and reuse.

17 We can't do all of this by ourselves. Telenet collaborates with many different partners across the value chain to create positive change.
