# How do I scan the channels on my Loewe TV?

telenet

## Before you begin

- Some steps on your TV may **differ** from **the steps shown below**.

- Do not **insert your CI+ module** into your TV until **after** you have scanned the channels!

- If you are asked to enter a **PIN code** and have **forgotten** it,
  try one of the **default PIN codes**: 0000, 1111 or 1234.

## Scan the channels

**1.** Press the **Media** button on your remote control.

**2.** Select **Index** and press **OK** on your remote control.

**3.** Go to **Repeat initial installation** and press **OK** on your remote control.

**4.** **Select the language** you want to use and press **OK** on your remote control.

**5.** Select **Home mode** and press **OK** on your remote control.

**6.** Select **Belgium** and press **OK** on your remote control.

**7.** Select **As TV set** and press **OK** on your remote control.

**8.** Select **DVB-C** and press **OK** on your remote control.

**9.** Select **the language** you want to use for **Subtitles and audio language (DVB)**
   and press **OK** on your remote control.

**10.** Select **Telenet** and press **OK** on your remote control.

**11.** Enter the following **values:**
   - Start frequency: **322.0**
   - Network ID: the code for your region (**22** for Flanders and **12** for Brussels)
   - Symbol rate: **6875** (use the right-arrow button)
   - QAM modulation: **256** (use the right-arrow button)

**12.** Press **OK** on your remote control.

**13.** Choose **Yes** next to **Use LCN** (this copies the Telenet channel numbers to your TV).

**14.** **Your TV now scans the channels.**
   - After the scan is complete a **summary** is shown.
   - Then you can make a number of **personal settings**.
   - **Confirm each choice** by pressing **OK** on your remote control.

## Now continue with steps 4, 5 and 6 in the 'TV with a card' manual.
